

Annex C.2: Update of paragraph 10.3.2 (Publication of data after Market Coupling calculation) of the approval document

Date of the change-request: 20st February 2015
Target date for implementation: at Go-live

Due to the following reasons paragraph 10.3.2 of the 1st August 2014 version has to be updated:

1. CWE FB MC go live after the go live of the central ENTSO-E transparency platform (<https://transparency.entsoe.eu>): foreseen interim-publications on CASC become obsolete
2. Decommissioning of the website <https://www.europeanpricecoupling.eu/> due to the fact that the data items are published on <https://transparency.entsoe.eu>
3. Inconsistency in the definition resp. specification of “allocated capacities”

10.3.2 Publication of data after Market Coupling calculation

The Project will comply with the respective obligations of Art. 12 (a) & (e) of the transparency Regulation.

Additionally, in the framework of separate CWE FB MC publications, the following data is published:

On CASC Website:

- Capacity allocated
- The total congestion income in the CWE area

In addition it is the aim of the Project Partners to publish the following data:

- PX market prices: the market prices for each market time unit of the day will be published on daily basis on the ENTSO-E platform and by the individual PXs for their hub.
- Aggregated supply and demand curves for each market time unit of the day will be published by the individual PX for their hub.

These data will be published after Flow Based allocation for each market time unit (presently an hour) of the day.

Content	Where/ Who	When	Unit
Capacity allocated	CASC/ ENTSO-E	14:00 CET	MW
Congestion income	CASC/ ENTSO-E	14:00 CET	€
Individual Hub prices	PXs' websites	14:00 CET	€/MWh
Aggregated supply and demand curves for each market time unit	PXs' websites	14:00 CET	-
Overview CWE-Hub prices	ENTSO-E	13:00 CET	€/MWh
Hubs net positions	CASC / ENTSO-E	14:00 CET	MW
